JF	1132	maybe concrete barricades, CUE and member presence
JF		only 2 reasons to proceed: Cartrts or border
JF		we need to control traffic
JF		CP-4 we need to control
JF		2 cps along 4 for foreseeable future
JF		Concern about Carway & Del Bonta
JF		these are thoughts for discussion
1133	TD	it's more of having reaction team there
	TD	community members own multiple tracks
	TD	not one of the tractors came through checkpoints
	TD	normalcy is important but be prepared to react
	GS	they want to go back to normal
	GS	less visible we are, may be better

Time	Action	Details
1140	GS	maybe several mobile patrols and QRT
	GS	so many access points
	GS	mobile patrol may be more effective
	JF	I get it. My concern is that of heavy trucks being more of a problem to deal with
1142	TD	we have ability to react. Keep tow trucks down here
	TD	CP-10 became a rallying point
	TD	Response becomes a Class 1 driver & tow trucks
	TD	worth drafting out a plan with pros/cons and have barricades available
1144	GS	barricades suggest RCMP is closing the road
	GS	when would they come off?
	GS	better to have agility to respond
	JF	thanks for comments
	JF	map out a plan
	JF	I am not comfortable over next few days, saying that risk is low
	JF	I'd like to see your proposal
1146	PT	Objective we want to see is that another Convoy does not get embedded
	IS	our biggest limitation was not having tow trucks we have GC's original plan
	IS	outlined deployment schedule for next 4-5 days
	JF	I agree with more visibility. Significant pressure on us to prevent road closure. I don't disagree with what you are saying. It's also about optics

	TD	CP-10 or anywhere on hwy can close border. we need QRT
1151		So many of our vehicles makes people think they are important
	GS	objective of road block? Other than optics?
	JF	for me - concern about semis getting into area and keep them out of equation
	GS	QRT won't allow them time to set up
	TD	let's work on this and transitional phase maybe we take down our infrastructure we'll take a look at it.
	JF	more short term vs long term
	JF	be in position to limit heavier trucks
	JF	I like lots of our vehicles on hwy
	JF	be mindful of our authorities - can we check trucks
1156	PT	when Port traffic normal, how effective will our checkpoint be?
	JF	trust in you guys to come up with plan. We are not out of woods yet.
1158		no push-back from us, that's not intent
	TD	Timing is important. we need to be ready. would feel better with few trucks closer.
